

EARNFLOW

SMARTPHONE INCOME PRO

The practical action toolkit for beginners who want to build legitimate online income skills — starting with a smartphone.

VERSION 2.0 • 2026

Inside: income-path selector • 30-day plan • AI prompt vault • freelance kit • digital-product builder • content-to-income system • Ghana-focused pricing worksheets • customer acquisition • scam defense • tracking dashboards • scaling plan

No guaranteed income. No betting. No get-rich-quick promises.

Welcome to EarnFlow Smartphone Income Pro

This is an action workbook, not a promise of easy money. The goal is to help you choose one realistic path, practise a useful skill, create proof, find people with a real problem, make an offer, deliver well and improve from evidence.

How to use this toolkit

- Choose ONE primary path for the next 30 days.
- Write answers in the worksheets instead of only reading.
- Use AI to speed up learning and drafting, but verify important facts.
- Track outreach, sales, fees, costs and profit.
- Never share your MoMo PIN, OTP, passwords or recovery codes.
- Check current rules and eligibility directly on official platform websites.

Your 30-day target

Chosen path	
Specific skill/service	
Target customer	
First measurable target	
Hours available each day	
Start date	
Review date	

Module 1 — Choose Your Income Path

Four beginner-friendly paths

Freelance services	Sell a useful skill such as writing, design, video editing, research, virtual assistance, simple websites or social media support.
Digital products	Create a useful guide, template, worksheet, calculator, prompt pack or other resource.
Content	Publish useful content and monetize through relevant products, services, partnerships or platform programs where eligible.
Micro-work	Complete legitimate small online tasks while building a higher-value skill.

Opportunity scorecard — score each option 1–5

I can learn the basics quickly	___ / 5
People clearly need this	___ / 5
I can demonstrate the result	___ / 5
I can start with my current tools	___ / 5
I can reach potential customers	___ / 5
I can explain the offer simply	___ / 5
Total	___ / 30

Choose the highest-scoring realistic option, then validate it with real people. A high score is a hypothesis, not proof of demand.

Module 2 — The 30-Day EarnFlow Method

Week 1 — Choose + Learn

- Pick one path and define the customer problem.
- Study 30–60 minutes a day using reputable free resources.
- Practise the skill every day.
- Write down questions customers repeatedly ask.

Week 2 — Practise + Prove

- Create three portfolio samples.
- Improve each sample using a checklist.
- Create a simple portfolio folder or page.
- Write one clear offer with a specific deliverable.

Week 3 — Publish + Reach Out

- Publish useful proof or examples.
- Contact relevant prospects respectfully.
- Track every outreach attempt.
- Follow up once or twice without spamming.

Week 4 — Deliver + Improve

- Complete paid work carefully.
- Ask for truthful feedback.
- Calculate revenue, fees, costs and profit.
- Keep what works and change what does not.

Daily action tracker

Day	Learn	Practise	Publish / Outreach	Done

Module 3 — AI Prompt Vault

Replace the brackets. Ask AI not to invent credentials, testimonials, experience, market data or facts.

Learning

Teach me [SKILL] from beginner level. Build a 14-day plan with daily lessons, exercises, self-tests and measurable results.

Research

Help me research demand for [SERVICE] among [CUSTOMER TYPE]. Give me interview questions, search terms and a validation checklist. Do not invent market data.

Offer

Turn [SKILL] into three service offers for [CUSTOMER TYPE]. Define problem, deliverable, turnaround, proof and beginner pricing approach.

Portfolio

Give me three realistic portfolio briefs for [SERVICE] that a beginner can complete and that demonstrate useful outcomes.

Content

Create 30 short-form content ideas for [NICHE]. Give each a hook, useful point, example, CTA and fact-check note.

Outreach

Write a short respectful outreach message to a [CUSTOMER TYPE] offering [SERVICE], focused on a specific problem.

Proposal

Create a one-page proposal for [PROJECT] with scope, deliverables, timeline, assumptions, price placeholder and next step.

Revision

Review this draft: [PASTE]. Identify unclear parts, unsupported claims and grammar issues without inventing facts.

Product

Generate 10 digital-product ideas for [AUDIENCE] based on recurring problems. Score usefulness, ease, willingness to pay and competition; label assumptions.

Weekly review

Review these numbers: [PASTE]. Calculate revenue, costs, profit, response rate and conversion when possible, then suggest three experiments.

Module 4 — Freelance Starter Kit

Offer builder

Customer	I help _____
Problem	who struggle with _____
Service	by providing _____
Outcome	The result is _____
Turnaround	_____
Price	GH₵ _____
Proof	Sample / portfolio link: _____

Portfolio checklist

- Three relevant samples
- Clear problem/solution description
- Your role stated honestly
- Contact method
- No fake clients or invented results
- Files/links tested on a phone

Outreach template

Hi [NAME], I noticed [specific observation]. I help [customer type] with [service]. I made/attached [proof]. If improving [outcome] is a priority, I can suggest a small first step. Would you like me to send it?

Follow-up

Hi [NAME], just following up on my note about [need]. No pressure if the timing isn't right. If useful, I can send a short example.

Delivery checklist

- Confirm scope and deadline
- Confirm price and payment terms
- Deliver exactly what was agreed
- Check files and links
- Handle revisions within agreed scope
- Ask for a truthful testimonial if satisfied

Module 5 — Build a Digital Product

Problem → product

1. Identify a repeated problem.
2. Talk to potential users.
3. Create the smallest useful solution.
4. Test it with a few people.
5. Improve confusing sections.
6. Package the final resource.
7. Create a clear sales page.
8. Connect payment and test checkout.
9. Test delivery from a customer's phone.
10. Launch, collect feedback and improve.

Digital product planner

Audience	_____
Repeated problem	_____
Useful outcome	_____
What is included	_____
Why useful/different	_____
Price	GH₵ _____
Payment method	_____
Delivery method	_____
Support contact	_____
Refund terms	_____

Launch checklist

- Price and currency visible
- Payment page tested
- Success/redirect page tested
- Product file ready
- Access works on Android

- Support contact visible
- No guaranteed-income claims

Module 6 — Content-to-Income System

Use: Hook → Value → Proof/Example → Action.

Content ideas

- 3 mistakes beginners make with [TOPIC]
- How to start [SKILL] with a smartphone
- One free tool for [TASK]
- A scam warning everyone should know
- Before/after demonstration of [SKILL]
- One AI prompt for [TASK]

30-post planner

#	Topic / problem	Format	CTA	Published
1	_____	Post / Video	_____	■
2	_____	Post / Video	_____	■
3	_____	Post / Video	_____	■
4	_____	Post / Video	_____	■
5	_____	Post / Video	_____	■
6	_____	Post / Video	_____	■
7	_____	Post / Video	_____	■
8	_____	Post / Video	_____	■
9	_____	Post / Video	_____	■
10	_____	Post / Video	_____	■
11	_____	Post / Video	_____	■
12	_____	Post / Video	_____	■
13	_____	Post / Video	_____	■
14	_____	Post / Video	_____	■
15	_____	Post / Video	_____	■
16	_____	Post / Video	_____	■
17	_____	Post / Video	_____	■
18	_____	Post / Video	_____	■
19	_____	Post / Video	_____	■
20	_____	Post / Video	_____	■
21	_____	Post / Video	_____	■

22	_____	Post / Video	_____	■
23	_____	Post / Video	_____	■
24	_____	Post / Video	_____	■
25	_____	Post / Video	_____	■
26	_____	Post / Video	_____	■
27	_____	Post / Video	_____	■
28	_____	Post / Video	_____	■
29	_____	Post / Video	_____	■
30	_____	Post / Video	_____	■

Monetization ladder

Free useful content → free resource/tool → trust → relevant paid product/service → repeat customer/referral.

Module 7 — Ghana Pricing & Income Math

Revenue is not profit. Subtract payment fees, refunds, advertising and other costs before judging results.

Digital-product target

Monthly target	GH■ _____
Price per sale	GH■ 250
Sales needed	Target ÷ 250 = _____
Example: GH■2,500	10 sales before fees/refunds
Example: GH■10,000	40 sales before fees/refunds

Freelance target

Monthly target	GH■ _____
Average client value	GH■ _____
Clients needed	Target ÷ average client value = _____

Weekly business tracker

Metric	Week 1	Week 2	Week 3	Week 4
Revenue	_____	_____	_____	_____
Fees	_____	_____	_____	_____
Other costs	_____	_____	_____	_____
Profit	_____	_____	_____	_____
Leads	_____	_____	_____	_____
Sales	_____	_____	_____	_____
Outreach	_____	_____	_____	_____
Positive replies	_____	_____	_____	_____

Module 8 — Scam Defense

Stop and verify if...

- Someone guarantees unusually high returns or employment.
- You must pay a fee to receive a supposed job or prize.
- You are pressured to act immediately.
- Someone requests your MoMo PIN, OTP, password or recovery code.
- A recruiter cannot provide verifiable company/job details.
- Payment instructions suddenly change.

Five-minute verification

1. Search independently.
2. Use official company contact details.
3. Read exact fees, terms and refund conditions.
4. Never share authentication codes.
5. Verify recipient and amount before confirming payment.

EarnFlow security rule: EarnFlow will never need your MoMo PIN or OTP.

Personal security checklist

MoMo PIN	■ Private
OTP	■ Never shared
Email password	■ Strong + private
Recovery codes	■ Stored privately
Phone lock	■ Enabled
Important files	■ Backed up

Module 9 — Get Your First Customer

Where to look

- People or businesses already showing the problem you solve.
- Local businesses needing digital support.
- Legitimate freelance platforms and professional communities.
- Your existing network, approached respectfully.

Discovery questions

- What are you trying to improve?
- What have you tried?
- What would success look like?
- When do you need it?
- What constraints matter?

Objection responses

Too expensive: Ask which outcome matters most and whether a smaller scope helps.

I'll think about it: Thank them and offer one useful next step without pressure.

Can you guarantee results? Explain what you control and what depends on the market, customer decisions and execution.

Prospect tracker

Prospect	Problem	Offer	Date	Status	Follow-up
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

Module 10 — Improve & Scale

- Identify the offer with the clearest positive response.
- Document delivery so you can repeat it.
- Create reusable templates and checklists.
- Collect truthful testimonials with permission.
- Raise prices only when value, demand and capacity support it.
- Add one complementary offer instead of five unrelated products.
- Track profit, not just revenue.

Weekly review

What worked?	
What failed?	
What did customers ask for?	
What will I stop doing?	
What will I improve?	
One experiment next week	

Scale scorecard

Demand	Low / Medium / High
Delivery repeatability	Low / Medium / High
Customer satisfaction	Low / Medium / High
Profit margin	Low / Medium / High
Lead flow	Low / Medium / High
Next bottleneck	

Bonus — WhatsApp Sales & Creator Partnership Kit

Simple WhatsApp flow

- 1. Start:** Thanks for reaching out. What are you trying to achieve with [topic]?
- 2. Diagnose:** Ask one or two questions about the problem, urgency and desired outcome.
- 3. Recommend:** Explain which part of your product/service fits and why.
- 4. Invite:** If you'd like, I can send you the payment link and what you'll receive.
- 5. Confirm:** After payment, send the correct access instructions.

Creator partnership pitch

Hi [NAME]. I've been looking at the questions your audience asks about making money online. I'm building a practical toolkit that answers those problems with templates and step-by-step actions. I'd like to give you a free copy. If you genuinely think it helps your audience, we can test a promotion and agree a written revenue-share arrangement. No upfront payment needed. Can I send you the preview?

Partnership tracker

Creator	_____
Niche	_____
Audience problem	_____
Proposed split	_____
Tracking method	_____
Agreement confirmed	■ Yes ■ No
Result	_____

Bonus — EarnFlow Launch Checklist

1. Product file opens correctly on Android.
2. Payment page shows GH₵250 and the correct product.
3. Checkout is tested appropriately.
4. Success/redirect page loads correctly.
5. Download button works.
6. Support email is visible.
7. Sales page explains exactly what the buyer receives.
8. Refund/support terms are published.
9. Posts do not promise guaranteed income.
10. Every sale and customer question is recorded.

First 10 customers plan

Aim for learning, not hype. Talk to prospects, show what is inside, collect objections, make the offer clearer and record every sale.

Customer 1	_____
Customer 2	_____
Customer 3	_____
Customer 4	_____
Customer 5	_____
Customer 6	_____
Customer 7	_____
Customer 8	_____
Customer 9	_____
Customer 10	_____

Quick Reference — Your EarnFlow Operating System

Every week:

- Learn one thing.
- Practise one thing.
- Publish or show proof.
- Talk to potential customers.
- Deliver well.
- Track the numbers.
- Review what worked.
- Improve one bottleneck.

The EarnFlow principle

Build useful skills. Solve real problems. Track the numbers. Protect your money and accounts. Ignore hype.

Important disclaimer

This toolkit is educational material. It does not guarantee income, employment, sales, investment returns or platform eligibility. Results depend on skills, effort, demand, customer decisions, costs, platform rules and other factors. Verify current rules, fees and eligibility directly with the relevant provider.
